

EDUCATION & PROFESSIONAL EXPERIENCES

JD AI Research

Senior Research Scientist
Research Scientist

Mountain View, CA
Jul. 2021 – present
Oct. 2020 – Jun. 2021

Stanford University

Doctor of Philosophy, Computer Science

Stanford, CA
Sep. 2015 – Sep. 2020

- Research Assistant with Stanford Natural Language Processing Group (Advisor: Chris Manning)

Master of Science, Computer Science

Sep. 2013 – Jun. 2016

- Research Assistant with Stanford Artificial Intelligence Laboratory (Advisor: Andrew Ng)

Master of Science, Department of Statistics

Apr. 2016 – Apr. 2017

Tsinghua University

Research Assistant, State Key Laboratory of Intelligent Technology & Systems (Advisor: Xiaolin Hu)

Beijing, China
Jul. 2011 – Jun. 2013

Bachelor of Engineering (magna cum laude), School of Software
2012

Aug. 2008 – Jul. 2012

HONORS

Inaugural Yufan Award (Rising Stars Category) at World Artificial Intelligence Conference 2020 (20 top young Chinese AI scientists worldwide), Facebook ParIAI Research Award, China’s National Scholarship (top 3% university-wide at Tsinghua), Freshman Scholarship (provincial top 10 in college entrance exam), and other merit-based awards from undergrad

EXPERIENCE

Facebook AI Research (New York) Jun. 2017 – Sep. 2017
Learning to Teach through Communication (Mentors: Jason Weston, Douwe Kiela, Kyunghyun Cho)

- Studied emergent teaching behavior of machine learning agents in a constrained communication setting
- Proposed a reinforcement learning-based method for agents to learn to teach

- Implemented the proposed method in ParlAI with positive results on image classification tasks

Contributing Open Source Projects

Stanza [↗](#) (documentation [↗](#))

- PyTorch implementation of Stanford's full system in the 2018 CoNLL Shared Task on Universal Dependency Parsing from Raw Text
- Includes neural network models for tokenization, part-of-speech tagging, lemmatization, dependency parsing, and NER in 60+ languages with pretrained models available and intuitive Python interface
- Pipelines for syntactic analysis and NER for English-language biomedical text
- Main contributor and maintainer

HuggingFace Transformers [↗](#)

- Bugfixes in various standard example scripts for running BERT for question answering

Universal Dependencies [↗](#)

- Maintainer of the Chinese-GSD treebank and its corresponding version in simplified Chinese
- Converted the GSD treebank to simplified Chinese, fixed annotations and segmentation when necessary, engaged in community discussions about annotation standards

ParlAI [↗](#)

- Implemented various features to enable teacher training in ParlAI
- Bugfixes and stability improvements

Caffe [↗](#)

- Implemented a framework for generic solvers
- Implemented Nesterov's Accelerated Gradient solver and AdaGrad solver
- Contributed neuron layers (Leaky ReLU, Mean-variance normalization)
- Compatibility issues / bug fixes for Mac OS

Kaldi [↗](#)

- Contributed the first training recipe for the Fisher/Switchboard mixed speech corpus (the largest speech corpus in use in academia)
- A bug fix for Kaldi's speaker identification for better speaker heldout training

ConvolutionalRBM.m [↗](#) (Owner)

- An implementation of Honglak Lee *et al.*'s convolutional restricted Boltzmann machine model in Matlab, MEX (C++/CUDA)

INVITED TALKS

- Seminar speaker. Explainable and Efficient Knowledge Acquisition from Text. University of Southern California. (Spring 2020)
- Seminar speaker. Explainable and Efficient Knowledge Acquisition from Text. University of Arizona. (Spring 2020)
- Seminar speaker. Answering Complex Open-domain Questions in the Wild. University of Southern California Information Sciences Institute (USC ISI). (Fall 2019)
- Seminar speaker. Answering Complex Open-domain Questions in the Wild. Stanford OVAL Seminar. (Fall 2019)
- Seminar speaker. Answering Complex Open-domain Questions in the Wild. University of California at Los Angeles. (Fall 2019)
- Invited speaker. Open-domain Text Understanding at Scale with Multi-step Reasoning. Facebook AI Research. (Summer 2019)
- Invited speaker. Open-domain Text Understanding at Scale with Multi-step Reasoning. Cresta, Inc. (Summer 2019)
- Invited speaker. Open-domain Text Understanding at Scale with Multi-step Reasoning.

	soning. Samsung Research America. (Summer 2019)
	<ul style="list-style-type: none"> • Invited speaker. Open-domain Text Understanding at Scale with Multi-step Reasoning. Salesforce Research. (Spring 2019) • Seminar speaker.
